

Private social clubs, initiatives and societies have to ensure increasingly the daily support and maintenance of over 2 million children in need in Germany. Financial stability can only be guaranteed in long-terms by a sustainable networking of sponsors and funding projects.

***Brücken für Kinder***, in English ***Bridges for Children*** is a non-profit-organization and strong supporters networking platform that is matching sponsoring partners with selected (well-chosen) projects. Especially we care about social educational oriented music-, creativity- and prevention-projects. The primary aim of our association work is to ensure solid strategic project partnerships.

The annually ***Bridges for Children*** fundraising gala is the important event and encouraging result of our social network. We honor projects particularly worthy of support with our ***Bridges for Children*** Encouragement Award (***Brücken für Kinder-Förderpreis***). We reward personalities who stand up for children and young people in an outstanding way.

Bridge builder use our event for their personal exchange and for their networking with new projects.
